

Bible and Science Class Survey  
2009 – 2010

1. This class helped me because...
  - a. I never thought of what was presented before
  - b. I finally got some answers to some questions I have had about science and Bible
  - c. A & B
  - d. It did not really help me
  - e. Other \_\_\_\_\_
  
2. What I liked **most** about the class was
  - a. The videos and what they told us
  - b. The way the teachers presented and taught
  - c. That the classes were once a month instead of all in a row.
  - d. That we got together with the other class
  
3. What I liked **least** about the class was
  - a. The videos and what they told us
  - b. The way the teachers presented and taught
  - c. That the classes were once a month instead of all in a row.
  - d. That we got together with the other class
  
4. I thought the way the class was taught was
  - a. Just right, I got a lot from it
  - b. Too childish, we were treated like we were little kids
  - c. Too complicated, I did not get it
  - d. Too boring, it should have been taught differently
  
5. If we do this next year we should (**circle any or all that apply**)
  - a. Do the lessons all in a row instead of one a month
  - b. Should just watch the videos and talk about them
  - c. Should do them just like we did this time
  - d. Not have the 5/6<sup>th</sup> and 7/8<sup>th</sup> together
  - e. Other \_\_\_\_\_
  
6. I am glad I know this material now because (**circle any or all that apply**)
  - a. I can feel like the Bible is not just something for church
  - b. I see that science is not as smart as some people want me to think it is
  - c. The Bible and science are in agreement and they are not really against each other.
  - d. I want to share some of what I learned with other kids in school.
  - e. Other \_\_\_\_\_
